---

Eric , Thank You for starting to address my issues with my property so quickly , Ex. 6

Yes when I bought this property in the early 80's from a private seller his name (Zeon Worblewski) the property was a over grown field the old garage structure on the far corner was there and is currently there. When I started to clean up that property there was piles of slag and slag that was spread in different spots . I do recall that the owner that I purchased it from when I mentioned it had a company called Walter Kozdranski come and clean it out I do remember there orange trucks . That gravel drive extended threw my property and came out on the north end of it . There can possibly be some of that material there still . The property was cleaned up and graded the majority by myself , at the time I wasn't aware or even think about what all this was .

I will get the Proposed Agreement signed and e-mailed to you , Thanks again Eric .. Ex. 6

Good Evening Ex. 6

It was nice meeting you yesterday. Attached is the access agreement we discussed. Please let me know if you have any questions regarding the document. If you do not, please sign and return to me via email.

As I informed you, we will return to the site on April 18<sup>th</sup> and will be performing assessment work until April 28<sup>th</sup>. I wanted to throw some tentative dates out there for you so we can plan with our specialists.

**Proposed Activities:**

**Radon Canisters**

- o We would like to drop off radon canisters within your home Friday, **April 22<sup>nd</sup>**
- o We would then pick up the radon canisters on Monday, **April 25<sup>th</sup>**
- o We would like to perform gamma survey on your property and inside your home on Saturday, **April 23<sup>rd</sup>**.
- o As I described to you, I have elevated this work for you home. If we do discover elevated gamma readings in your soil, we would be able to take samples right there and then and send them out for analysis on April 23<sup>rd</sup>. This way, you will have indoor and outdoor results in a fairly quick time period.
- o Obviously, we would need someone at the home to perform the interior work. We would need your permission to perform the outdoor work without you at the property.

If you could please verify my account of what you described during our conversation.

'ou built your home in the mid 1980's.

'ou were told the gravel road that originates in the lot across Roberts Street continued through your property.

Vhen digging the foundation, you encountered rock-like material and to your knowledge, this material is still on your property.

Thanks

Regards,

Eric
